

Our Comfort Menu

Your comfort is our priority. We provide a variety of services to ensure that you are comfortable at all times.

The following are available:

- Patients find that if they take an analgesic prior to treatment, it helps later in the day. Which would you prefer? Tylenol---, Advil---, Other-----.
- We provide various levels of sedation to ease your mind. Would you benefit from a sedative? Nitrous Oxide or Oral Sedative (Must be driven from office)
- We offer Oraverse. Oraverse is the first and only product to reverse the effects of local anesthesia.
- Our treatment rooms are equipped with cable TV and Netflix and DVD players.
- We offer Ipod Touch and Bose noise reduction headphones.
- Complimentary WiFi internet access is available.
- Blankets and pillows are available for your comfort upon request.
- We offer patients complimentary paraffin wax treatments during your visit.
- A warm towel to freshen up after your visit.
